# SpacePilot™ PRO

The Ultimate Professional 3D Mouse

## Design Excellence For Engineers

The challenges for today's CAD-intensive business are many. The demand for more advanced products, a compressed time to market and the focus on more efficient development cycles all place increased performance demands on the CAD professional.

**SpacePilot™ PRO** is engineered to meet these challenges and to excel in today's most demanding 3D software environments.

# SpacePilot™ PRO

The Ultimate Professional 3D Mouse

## First LCD Workflow Assistant

The **full-color LCD** delivers at-a-glance visibility of e-mail\*, tasks, calendar entries and function key commands ensuring quick access to key information without interrupting your workflow.

## Powerful Application Control

Five new fully customizable, dual-function **Intelligent Function keys** provide instant access to 10 frequently used commands. SpacePilot™ PRO recognises the active application and work environment and automatically assigns the appropriate commands. The color LCD provides visual feedback on function key assignment ensuring an optimized workflow.

## Advanced MCAD Navigation

SpacePilot™ PRO features the most advanced six-degrees-of-freedom (6DoF) sensor technology. Gently push, pull, twist or tilt the **compact controller cap** to smoothly pan, zoom and rotate 3D models. It's like reaching into the screen and holding the model in your hand. The second generation **QuickView Navigation** keys provide fingertip access to 32 standard views giving an unparalleled level of control that encourages model exploration leading to improved error detection and design quality.

## Superior Comfort

The soft coated, sculpted **wrist rest** positions the hand perfectly while the **compact controller cap** guides your fingers into the ideal position for precise and effortless control. The most frequently used function keys are conveniently positioned, ensuring a comfortable working experience, even for the longest design sessions.
